

REMARKS

Claims 1-53 are pending in this application. The Office Action found these claims to contain the following two inventions:

Group I – Claims 1-8 and 48-53, drawn to generating a matched customer file and a non-matched customer file for updating a record entry in a matched customer file; and

Group II – Claims 9-47, drawn to updating using a conversion table.

(Office Action, page 2). The Office Action required restriction to one of the identified Groups.

In response to the restriction requirement, Assignee hereby elects without traverse Group I, Claims 1-8 and 48-53, for prosecution in the pending application. Assignee reserves the right to pursue claims in Group II in a divisional or continuation patent application.

Although no fee is believed to be due, the Commissioner is authorized to charge any deficiencies to Deposit Order Account No. 11-0855.

Respectfully submitted,
